WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Cut 30 long from one reel of 2.0 soft aluminium wire;
file the ends square, no burr.
Never use steel wire, a nail or a bolt: the pin is
the safety device that limits the pull.
Before use, break ten pins from the reel on CalRig
in a test fork: all must break 256 to 347 N.
Fit: push through cheek, tang and cheek; bend both
ends over by hand to about 45 deg.
Keep eleven spares in the spare pin tube.

STUMPRIDER

github.com/BoujeeEnjinia1701/stumprider

Shear pin (12, one fitted)

DRAWING NO.	REV	SHEET	SIZE
SMR-DWG-103	P1	1 of 1	ANSI B
