WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Cut 300 x 120 from 40 closed-cell foam (net float
or packaging foam; not polystyrene).
Cut a 30 deep, 60 wide notch in each end.
Round the corners; paint orange.
Tie the cord's free end through a 6 hole near one
notch and wind the 10 m lengthwise in the notches.
Floats the ring and cord with 2 times reserve;
not the jigging weight.
Check: floats with the ring hung on it.
