WHERE IT GOES

This part in colour, its neighbours in grey

HOW TO MAKE IT AND HOW IT FITS

Flat: 6 x 28 flat bar, 60 long. Drill 10.5 at 12
and 2.1 at 50 from the bottom end, on the centre
line (the same holes as the ring's tang).
Bar: about 220 of 12 round bar (ring stock). Bend a
J round a 48 pipe in the vice: 30 bend radius to
the bar centre, legs 60 apart, tip leg 35 long.
Butt the long leg on the flat's bottom edge, in line
with the flat; fillet weld all round. Galvanise.
Check: the fork slides over the flat freely and a
2 rod passes cheek, flat and cheek.
